Founded in 2008, **SolbegSoft** provides premium quality IT services to customers across the globe. With extensive technological expertise and wide experience across industries we develop high-end solutions, helping companies optimize business processes, boost performance and thereby achieve strategic goals.

We are looking for a **QA Engineer** to join our rapidly growing team.

Responsibilities

- Conducting manual testing;
- Planning and organization the testing process, test coverage analysis;
- Creation of test cases for acceptance testing;
- Writing documentation.

Requirements

- Understanding of software development methodologies;
- Ability to write understandable test documentation (test cases, test plans);
- Ability to work with Jira (or other Task management system);
- Ability to work with Git;
- Understanding of client-server architecture and API (REST) testing;
- Knowledge of SQL (the ability to use Select 's and simple Join' s);
- Experience with Postman/Swagger, Fiddler/Charles;
- Experience in CI tools such as Jenkins or Teamcity;
- Knowledge of the following methods and ability put into practice:
 - split into equivalence classes;
 - analysis of boundary values;
 - table of possible solutions;

- English level - Intermediate (good communication skills and ability to pass interviews).

Optional Bonus Skills:

- Ability to perform load testing (JMeter or other)

Social Package:

- Flexible schedule.
- 100% paid sick leaves.
- Health insurance.
- In-company library: any technical literature that you've ever dreamed about.
- Advanced training courses and professional conference participation payment.
- Paid certification.
- English Classes.
- In-office gym, tennis table, under-roof bike parking and even more.
- Sport compensation.
- Social events, team buildings and special gifts.

What is Solbeg?

- A stable company with 12+ years of history and HTP Membership.
- 400+ employees with offices in Minsk, Brest, New York, San Diego, Mumbai.
- A great mix of older and younger generations of engineers (the average age of our team is 32 years old).
- A combination of multicultural engagement and respect to Belarus culture.
- A passion for new technologies and environmental concern.
- A flexible work environment that encourages work-life-balance.

SolbegSoft is committed to a diverse workforce and is an Equal Opportunity Employer.
